

This high quality downlight is 4 inches in diameter. A switch inside the junction box allows you to choose the colour temperature (2700K, 3000K, 4000K) on the spot. One light fits all. Its integrated LEDs emit through a frosted diffuser to create smooth coverage.

The result is a field of light which is surprisingly bright and even. The light can be installed with a new-construction mounting plate or retrofit into the ceiling by using a round hole in the drywall.

The spring loaded clips grip the back side of the drywall, holding the light securely in place. Each light comes with an external LED driver (transformer) in a certified enclosure with a barrel connector that plugs into the light.

Item	Dimensions (mm)	LED Type	Dimmable	Colour Temperature	CRI
1075-dl-27-30-40-4in	(H total) 143 mm (5 and 5/8 inches) (L) 108 mm (4 and 1/8 inches) (H) 60 mm (2 and 3/8 inches) (D) 60 mm (2 and 3/8 inches)	Array	Yes (AC/Triac)	Switchable Between: 2700K Warm White 3000K Clean White 4000K Natural White	90+
