

Lumicrest LED strip lights bring energy savings, bright clear light, and long life reliability.

Amazingly narrow, only 4 mm wide. Perfect for when you need a bright light in a small space. Slim and discreet, yet high brightness and smooth illumination with 1,300 lumens and 180 LEDs per meter. And of course, with High CRI of 90+, to deliver the excellent light quality that Lumicrest is known for.

Ask about our narrow Aluminum Channel with Diffuser available as well, it's the ideal companion for mounting in displays or furniture units.

Get the Lumicrest Advantages

Clients who have compared our Lumicrest Flexible Strip Lighting to those of our competitors choose Lumicrest because of the quality of our products.

We use the highest quality LEDs available for LED strip product, for long life, and high lumen maintenance. This strip comes with 900 bright 2016 LEDs in a standard 5 meter roll (16.4 feet) and can be cut to length, as marked on the strip in 6 LED (3.25cm) increments.

Perfect for galleries, museums, hotels, resorts, offices, retail environments and residences.

Item	Power Consumption	Dimensions (mm)	LED Type	Dimmable	Colour Temperature
767-fsi-ww 705-fsi-clw	14.4 watts per meter	4mm Width	2016	With external control	2700k warm white 3000k clean white
Power Input	Power Type	Lumens per Meter	CRI
