

The Anvil (Model/SKU 1236/1237)

The Anvil is part of Lumicrest's new line of in-house custom-designed aluminum LED profiles for LED flexible strips/tape lights.

Q: What's different about the Anvil compared to similar LED profiles on the market?

- A: 1) The Anvil's base is 5/8" wide, to press-fit into common 5/8" grooves for convenience and speed of installation. Other LED profiles on the market are too wide or too narrow for a 5/8" opening.
- 2) The Anvil uses the same diffusing lens as others in the Lumicrest custom line, for interchangeability. (Others use slightly different diffusers for every model, even if the dimensions are basically the same).
- 3) The Anvil comes in a silver finish, in two lengths: 2.5 m (8' 2") and 3 m (9' 10").
- 4) Optional transparent and black translucent diffusers (lenses) are available upon request.
- 5) The Anvil's diffusers are made from self-extinguishing (fire-resistant) polycarbonate plastic for fire safety.
- 6) Optional mounting clips are small and discreet, for a refined appearance.
- 7) The Anvil is similar to the Workhorse, with the addition of small flanges at the top to hide any edge imperfections from when the groove is cut. Its name comes from the shape of the flanges, which are purposely kept small and discreet.

The Anvil can be used both in recessed applications (in a 5/8" groove) or surface-mounted.

It accommodates LED strips/tapes up to 12 mm wide.

Anvil Model/SKU	Finish	Width	Depth	Length	Included Diffuser
1236-ch-1908-2.5m-SV	Silver	base: 5/8" (15.9 mm) top: 3/4" (18.6 mm)	~0.3" (8 mm) (1/4" groove)	~ 8'2" (98.4") (2.5 m)	Frosted PC (polycarbonate)
1237-ch-1908-3m-SV	Silver	base: 5/8" (15.9 mm) top: 3/4" (18.6 mm)	~0.3" (8 mm) (1/4" groove)	~ 9'10" (118.1") (3 m)	Frosted PC (polycarbonate)

Alternate Diffuser Model/SKU	Description	Length
1240-ch-cleardiff-2.5	Transparent/Clear Diffuser	~ 8'2" (98.4") (2.5 m)
1241-ch-cleardiff-3	Transparent/Clear Diffuser	~ 9'10" (118.1") (3 m)
1242-ch-blackdiff-2.5	Black Translucent Diffuser	~ 8'2" (98.4") (2.5 m)
1243-ch-blackdiff-3	Black Translucent Diffuser	~ 9'10" (118.1") (3 m)
