

Lumicrest LED lights bring energy savings, bright clear and accurate light, with long life reliability.

The LED GU10 you've been waiting for! With bright directional light and high CRI for accurate color rendering, it's perfect for galleries and museums, as well as retail and hospitality environments.

While ordinary bulbs burn out quickly and produce more heat than light, our LED GU10 consumes only 5 watts, six times more energy efficient than halogen lights - for maximum energy savings.

The remarkable new Apturi optical system is unlike anything you've seen before. Apturi's "fly-eye" design captures more light from the LED and directs it outward with minimal glare.

### Get the Lumicrest Advantage

#### Features and Benefits:

- 300 lumen output in 3000K clean white at 95+ CRI
- Apturi optics provide more brightness and less glare
- Shatter and vibration proof - no filaments or glass
- Simple retrofit to existing fixtures (GU10 base)
- Single LED eliminates multi-shadowing
- Rugged construction
- Uses only 5 watts of power
- Emits no UV or IR rays
- Contains no mercury
- UL listed for USA and Canada
- CE and RoHS compliant
- Integrated modular power driver
- Available in 25 or 35 degree beam angles
- Generates bright soft white light
- No heat emitted in the beam
- Dimmable, for maximum lighting control
- Attractive, clean design

Perfect for art galleries, hotels, resorts, retail environments and more.

Items	Dimensions (mm)	LED Type	Dimmable	Colour Temperature	CRI	Lens Angles
453-g10-ww25 454-g10-ww35 455-g10-clw25 456-g10-clw35	57H) *50D)	1 CREE CXA COB LED	Yes	2700k warm white 3000k clean white	95+	25 & 35 degrees

Voltage Input	Power use	Lumen Output	Power Factor	Working Temperature	Weight
110V-120 AC at 60 hz.	5 watts	280 lm for 2700K 300 lm for 3000K	.98	-20C to 45C	57g

Lumicrest brings you the finest selection of high quality, innovative and cost-effective LED lighting solutions.
