

Introducing the new Modulux 10 Watt high CRI (95+) Integrated LED track head.

Designed to be a complete LED track lighting solution for discriminating museums, art galleries, retail stores and residences.

The 95-CRI LED is integrated seamlessly with the fixture, heat sink and dimmable driver electronics to create an elegant and discreet lighting system for track installations.

It consumes only 10 watts and produces 780 lumens of High CRI light. Strict colour binning control ensures that the light from each of our Integrated LED track heads will look the same from one to the next.

You can easily change the Apturi optical lens from one beam angle to another to adapt to different requirements (from spot lighting to flood lighting). Lenses are available in 15, 40 and 60 degrees. Simply unscrew the lens holder and change the lens.

Comes with H-type track connector (halo-compatible). Other types (J and L) available upon request.

Dimmable with a variety of leading-edge dimmers. cETLus safety certified.
