

## 40/60/80W InvisiDrive Dimmable LED Power

Finally a solution to the age-old question:  
"where to hide the darn power supply?"

Everyone loves LED linear lights because they're sleek and small - but their power supplies are big and bulky. With the new TLX InvisiDrive series, problem solved! No need to run long wires to a utility closet or basement. No more bulky surface-mount canopies either!

Now you can simply recess your dimmable power supply near your LED lights and make it disappear.

Patent-pending.

### Features and Benefits:

- Quick and easy to install in drywall or wood
- 24V DC constant voltage for LED strips (tape light) and LED bars
- Dimmable with all common dimmers
- cETL certified power supplies
- Class 2 current-limited design
- Easy-access spring-clip mounting

Designed for powering LED flexible strip lights and rigid LED bars

Item	Dimensions (cm)	Wattage	Output Voltage	Hardwire	Class 2	Certification
