

Lumicrest Dotless Strip Lights have High CRI COB (chips on board) LEDs that bring energy savings, accurate clear light, and long life reliability. Perfect for when you need a high-output, high quality linear light in a small space.

Slim and discreet, yet with high brightness and smooth illumination up to 1050 lumens and 480 LEDs per meter and High CRI of 90+, it delivers the excellent light quality that Lumicrest is known for. When used in any Aluminum Channel with diffuser (or even without!) the lighting effect is perfectly uniform.

This strip has a quality 3M self-adhesive backing – just cut it to the length you want then peel and stick it to any smooth surface!

- for indoor use only
- non-waterproof version (waterproof sleeve sold separately)
- cuttable every 2.5cm (0.98 inch)

Get the Lumicrest Advantages

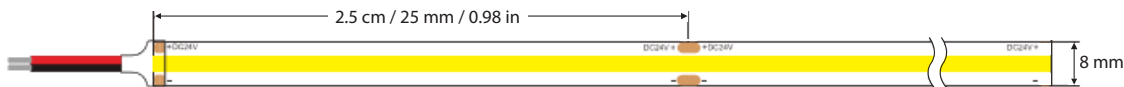

We use the highest quality LEDs available for a long life, and high lumen maintenance. This strip comes with 2400 bright LEDs in a standard 5 meter roll (16.4 feet) and can be cut on the marked 25mm / 1 inch increments.

Lumicrest High CRI Flexible Strip Lighting has been the choice of museums and art galleries due to how accurately it represents the colours of the objects it illuminates, high brightness, uniformity and colour purity of our products.

- CRI is 90 or greater. Actual measured CRI is up to 95.
- Width: 8 mm (5/16 inch) wide

Requires a 12 volt power supply (sold separately).

10 watts/meter | 3 watts/foot
