

12V Slim Plug-In Non-Dimmable 60 Watt Constant Voltage Power Supply

Specifications:

Input Voltage: 100V - 240V AC.
Output Voltage: 12V DC
Output Power: 60W
Certifications: cUL, LPS (Class 2)
Rated: For dry locations

Dimensions:

Length: 93.5 mm **Width:** 35 mm
Height: 51.5 mm **Cord:** 1030 mm (40.55 in)

This 60 watt Slim Plug-In Non-Dimmable Power Supply can power 12V LED strip lights.

Just plug its convenient barrel connector into the LED strip and you've got light! No need for soldering or wiring. No separate AC power cord - the body has an integrated 2-prong plug which plugs directly into an electrical outlet.

Rated for Safety and Reliability:

Meets rigorous safety standards to ensure dependable performance. CUL certified and LPS (Class 2) protected, preventing over-current situations which may result from connecting too much LED load.

Engineered to meet exacting professional requirements, this LED power supply for 12V lighting and 12V LED flexible strip lights offers exceptional flexibility and performance.

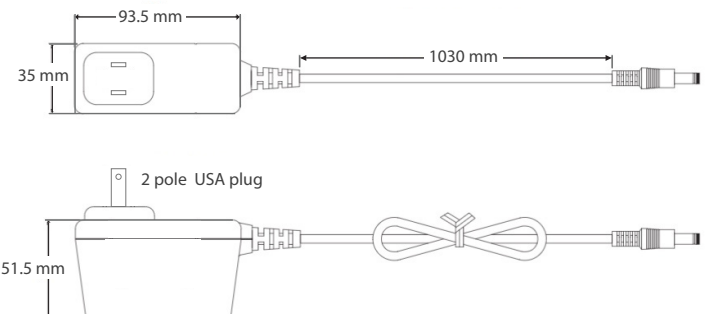

LPS rated (equivalent to Class 2, current limited)

Broad Input Voltage Range:

Operates with input voltages from 100V to 240V to accommodate various installation environments.

Power Capacity:

Provides up to 60 watts of power at 12V DC
