

### Introducing the new high CRI (95+) Integrated LED track head.

Designed to be a complete LED track lighting solution for discriminating museums, art galleries, retail stores and residences.

The Cree 95+ CRI LED is integrated seamlessly with the fixture, heat sink and dimmable driver electronics to create an elegant and discreet lighting system for track installations.

It consumes only 8 watts and produces over 550 lumens of high quality full spectrum light. The strict colour binning control applied by Cree ensures that the light from each of our Integrated LED track heads will look the same from one to the next.

You can easily change the Apturi optical lens from one beam angle to another to adapt to different requirements (from spot lighting to flood lighting).

Lenses are available in 25, 40 and 60 degrees. Simply unscrew the front part of the light and put in a different lens.

Compatible with H-type track systems. Other types available upon request.

Dimmable with a variety of leading-edge dimmers.  
\*See [lumicrest.com/dimmers](http://lumicrest.com/dimmers) for details.

Item	Dimensions (mm)	LED Type	Dimmable	Colour Temperature	CRI	Lens Angles
434-ih-clw35-8	(H total) 137 mm (L) 93 mm (D) 55 mm	Cree XLamp CXA	Leading edge (see list *)	3000k clean white	95+	25, 40, 60 degrees

Voltage Input	Power use	Lumen Output	Power Factor	Working Temperature	Weight
110V-120 AC at 60 hz.	8 watts	550 lm.	.98	-20C to 45C	.31 kg

Perfect for offices, galleries, retail, residential and hospitality environments.
