

The Chameleon

Silver Finish (model/SKU 1225/1226)

Black Finish
(model/SKU
1228)

White Finish
(model/SKU
1227)

The Chameleon is part of Lumicrest's new line of in-house custom-designed aluminum LED profiles for LED flexible strips/tape lights.

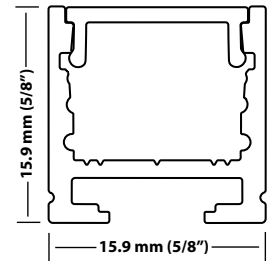

The Chameleon is 5/8" wide, to press-fit into common 5/8" grooves for convenience and speed of installation. It uses the same diffusing lens as others in the Lumicrest custom line (Workhorse and Anvil) for interchangeability. Comes in silver, black and white finishes in 2.5 m (8' 2") lengths. Silver is also available in 3 m (9' 10"). Optional transparent and black translucent diffuser lenses are available upon request. Its diffusers are made from self-extinguishing (fire-resistant) polycarbonate for fire safety. Mounting clips are small and discreet, for a refined appearance.

The Chameleon may be used in recessed applications (in a 5/8" groove), surface-mounted or suspended as a linear pendant. Its rear channel is designed to accept optional inline connectors or L-connectors to easily extend to longer lengths or create L-shapes or rectangular shapes.

Chameleon accommodates LED strips/tapes up to 12 mm wide.

rear mounting clip

Model/SKU	Finish	Width	Depth	Length	Included Diffuser
1225-ch-1608-2.5m-SV	Silver	5/8" (15.9 mm)	~5/16" (8 mm)	~8'2" (98.4") (2.5 m)	Frosted PC (polycarbonate)
