

Lumicrest LED strip lights bring energy savings, accurate clear light, and long life reliability.

Perfect for when you need a high-output, high quality linear light in a small space. Slim and discreet, yet with high brightness and smooth illumination up to 2,300 lumens per meter, with 238 LEDs per meter. And of course, with High CRI of 95+, it delivers the excellent light quality that Lumicrest is known for.

Get the Lumicrest Advantages

Clients who have compared our Lumicrest Flexible Strip Lighting to those of our competitors choose Lumicrest because of the quality of our products.

We use the highest quality LEDs available for LED strip products, for long life, and high lumen maintenance. This strip comes with 1,190 powerful 2835 LEDs in a standard 5 meter roll (16.4 feet) and can be cut to length, as marked on the strip in 6 LED (3 cm.) increments.

Perfect for galleries, museums, hotels, resorts, offices, retail environments and residences.

Item	Power Consumption	Dimensions (mm)	LED Type	Dimmable	Colour Temperature
1089-fsi-clw 1533-fsi-nsw 1059-fsi-nw	19.2 watts per meter	10 mm width	2835	With PWM dimmer or dimmable driver	3000K clean white 3500K natural soft white 4000K natural white
Power Input	Power Type	Lumens per Meter	CRI		
24V DC	Constant Voltage	2,200 lm/m @ 3500K (670 lm/foot) 2,300 lm/m @ 4000K (700 lm/foot)	95+
