

The Lumicrest Iris Recessed Eyeball Cabinet Light is elegant and discreet; a highly adjustable option for cabinet lighting.

The eyeball feature allows the light to be directed to specific locations, providing focused light on objects inside cabinets. Comes standard with a 30 degree lens. Additional/alternative lenses are available in 15 degrees or 45 degrees for narrower or broader beams.

Available in two dimmable color temperatures: 2700K and 3000K. Warmer gels are available upon request.

Available finish colours: white, black, and copper gold finishes.
