

36W Plugin Power Supply

This TLX plugin power supply is a 24 volt DC constant-voltage 36 watt unit, suitable for powering LED strips and bars.

With 1.5 meter cable attached and 2.1 mm DC barrel connector.

Features and Benefits:

- Reliable operation
- White housing for unobtrusive appearance
- Safe operation: Class 2 current-limited design
- cETL certified

Provides a solid 36 watts of DC power at 24 volts in a small unobtrusive white housing.

Perfect for powering LED flexible strip lights and rigid LED bars
